

SMART BODY™

**MODULAR
SERVICE BODIES**

Modular Transport - SBMT

Zip's introduces a completely customizable SMART modular service body designed to meet all the needs of any industry. Customized and clever storage compartments allow your customers to build for their exact needs. The following Smart Body configurations were designed to satisfy the broadest range of buyers, but these bodies can be tailored to fit almost any unique specification. One of a kind, and built by the best - Zip's delivers a superior product, at a competitive price, that's designed to make its users **more productive** and **more profitable**.

**CUSTOMIZABLE
SECURE & WEATHERPROOF
STRONG & DURABLE**

This **MODULAR TRANSPORT** unit features the same user-friendly storage compartments as the Modular Service Body along with a similar functional design, combined with many unique options. The powder coated aluminum front compartments offer a combined 32 cubic feet of accessible and secure storage. The ability to haul your equipment, big or small, is now made possible with the attachment of a gooseneck trailer or fifth wheel, plus an 80 gallon transfer tank.

UNIQUE STORAGE COMPARTMENTS

- Ergonomically Designed – Low Entry
- Top Door Designed for EASY Access
- Excellent Space Utilization
- Deep 34" Boxes with Shelving & Dividers
- 14 - 16 Cubic Feet
- Rugged Secure Weatherproof Design
- 24" Cross Frame Tunnel Box for 84"CA
- Rear Wood, Aluminum or Steel Deck
- Stake Pockets & Tie Down Points
